### Substance Abuse and Mental Health Services Administration

#### Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, contact the SAMHSA Reports Clearance Officer on (301) 443-7978.

*Comments are invited on:* (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have

practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; © ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

#### Proposed Project

1999 National Household Survey on Drug Abuse —(0930-0110)— Revision— The National Household Survey on Drug Abuse (NHSDA) is a survey of the civilian, noninstitutionalized population of the United States, age 12 and over. The data are used to determine the prevalence of use of cigarettes, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, ONDCP, Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources. For 1999, both the core and modular components of the NHSDA questionnaire will remain essentially unchanged. However, the sample size will be expanded to permit prevalence estimates for each of the fifty states. The total annual burden estimate is 94,918 hours as shown below:

|                           | No. of respondents | No. of responses per respondent | Average burden hours per response | Total burden hours |
|---------------------------|--------------------|---------------------------------|-----------------------------------|--------------------|
